Prologue

The Hornet Staff and Seniors of 1959 hope with all sincerity that this issue of The Hornet will be one that you will remember and prize during the coming years. Through it, may you remember the school, your classmates, teachers, and the organizations to which you and your friends have been a part.

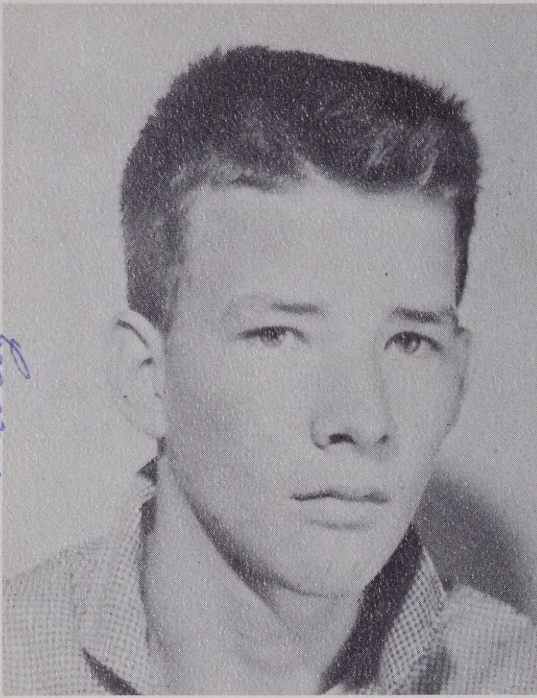

Dedication

We, the Senior Class of 1959, dedicate this volume of the Hornet to our class sponsor, Miss Ruth Lunsford.

She has been a great inspiration to us and has guided us through the rough spots of our school years with patience. With kindness and understanding, she has helped us share our joys and sorrows.

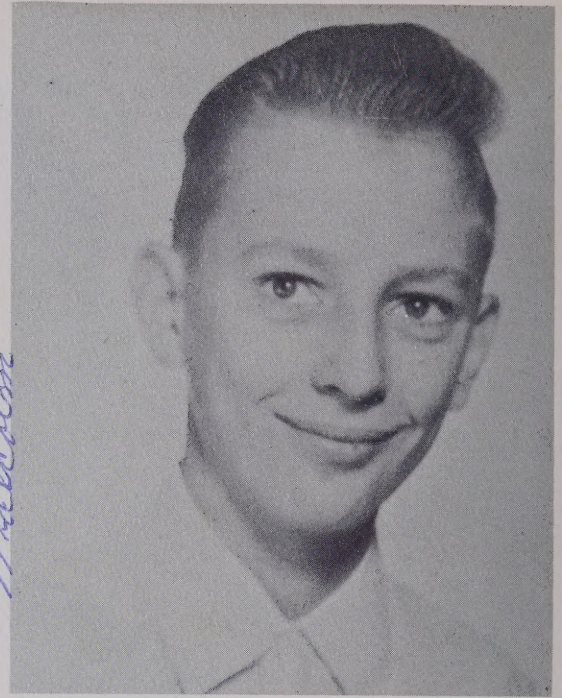

We shall always remember her for her sincerity, honesty, understanding, and kindness.

In Memoriam

Twilight and evening bell,

And after that the dark!

And may there be no sadness of farewell,

When I embark;

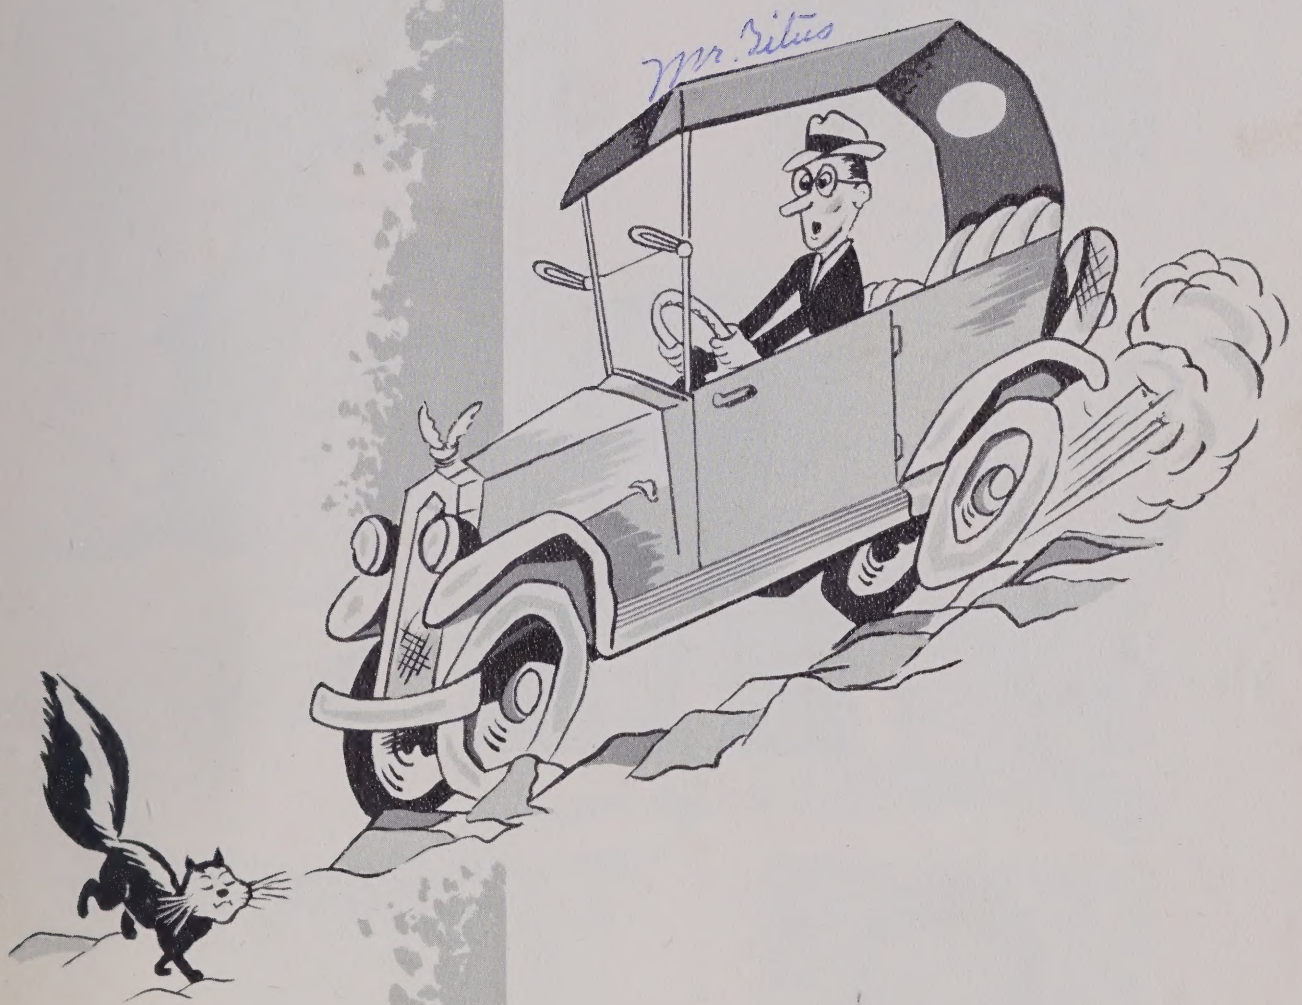

For tho' from out our bourne of Time and Place

The flood may bear me far,

I hope to see my Pilot face to face

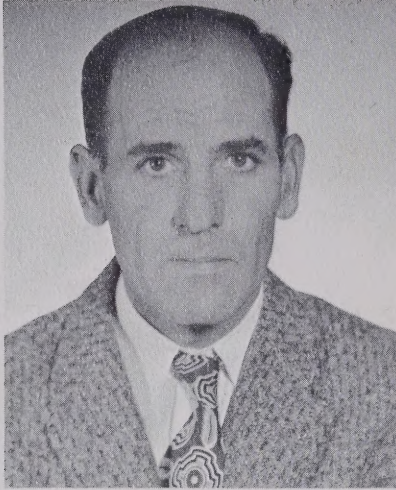

When I have crost the bar.

Seniors: In a few short months you will have reached the end of your high school days. During your high school years, you have had the opportunity to prepare yourself, in varying degrees, for the future, whether it be in furthering your education or entering the field of business and industry. Never before have both fields demanded more or offered greater opportunities and rewards. Your accomplishments in the future will reflect your preparation and determination to succeed. In your climb up the ladder of success and life, each step upward requires more determination and ability. Your class motto, "The door to success is labeled, 'Push'," could provide the impetus you need to achieve this climb.

We, your teachers, hope that through our efforts we have helped you prepare yourself for the future.

I wish each of you a happy and successful life.

Class History

We entered school for the first time in September, 1947, at Helena, Mt. Tirzah, and Hurdle Mills. How well I remember that day and I feel that there are quite a few of my classmates who do too. A number of us had a crying good time. I don't know why we "bawled" unless it was because "Mommy" left us with a total stranger. After a few days, however, when we cried at all, it was because we couldn't go to school.

In the first grade we learned how to read and write; also we learned our A B C's under Mrs. Knott, Miss Monk, and Mrs. Dickerson. Later a few of us cried and also got "Pencil-tapped," but we soon became accustomed to school.

The second year we were under the guidance of Mrs. Whitfield, Mrs. Fox, and Mrs. Reade. We learned more about school and were taught much more of the three "R's." We had additional activities, such as playing games on the outside.

Our third grade teachers were Mrs. O'Briant, Mrs. Warren, and Mrs. Satterfield, all of whom taught us how to write. This year we started studying arithmetic and English for the first time. Easter egg hunts, making stuffed animals, and several plays were among the activities on the pleasant side.

Under Miss Nina Rogers, Mrs. Hicks, and Mrs. Jones in our fourth year, we studied geography, long division and learned many Bible verses that helped us in many ways we didn't know of then. Some outside activities which we thoroughly enjoyed were weiner roasts and trips to outside places of interest.

We from all three schools shall never forget the fifth grade trying to learn the 48 states. We at Mt. Tirzah were separated for the first time into two classes. Mrs. Jones, Mrs. Painter, Mrs. Howard, and Mrs. Hicks also made us report on library books. The Helena pupils took a trip to Raleigh and the students at Hurdle Mills had to learn some very hard history.

Our sixth grade was filled with many more activities under Mrs. Carolyn Fare, Mrs. Lowery, and Mrs. Cothran. At Hurdle Mills we learned how to square dance, we also had an enjoyable picnic. At Mt. Tirzah we went to Deep Creek on a weiner roast and were taught the Virginia Reel. We also visited Morehead Planetarium, State Museum and other interesting places in Raleigh. We Helena students had a good time taking part in a colorful May Day program.

Our teachers in the seventh grade were Mrs. Rachael Brown, Mrs. Penn Noell, Mrs. Vera Dawes, and Mr. Ralph Street. We had to be divided into two classes at Helena because of the size. At Hurdle Mills our recreation included dances and picnics. Mt. Tirzah's main attractions were a Christmas party and participating in sports with other schools. This was a difficult year in school in spite of all the fun.

The last year finally came before the big jump into high school. Supervising us in the eighth grade were Mr. Street, Mr. Bryant, and Mrs. Noell. At Helena we were considered the "King Bees" by the grammar grades. We also had many parties. It seemed that Linda Rhew and Linda Evans found something very exciting about them. Wonder what it was?? The Mt. Tirzah boys' midget basketball team had a very successful season.

We were taught some algebra to help us in high school. We also took a trip to Durham to the cigarette factory and W.T.V.D. studio. At Hurdle Mills with Mr. Bryant's help, we presented a

play; also we published a paper. Sammy Hawkins and Otis Whitfield jumped out of the window and went to the store while Mr. Bryant was out.

At last the time had come for us to enter high school. We didn't know whether to dread it or enjoy it. Our homeroom teachers were Mr. Hodge and Mrs. Titus. In a very short time after entering high school, we had met and made many new friends.

Some of the outstanding events of our freshman year were our thorough health examination in Roxboro, our initiation in the FFA and FHA, the making of varsity teams in athletics by some of us, and our getting into trouble (that is some of us), and our becoming acquainted with the "Board of Education."

In our sophomore year, with Mr. Hicks and Mrs. Brooks as our homeroom teachers, we became more accustomed to high school and its daily routine. Oh, yes, we had some parties, weiner roasts and the like.

This year some of us were initiated into the Monogram Club, some of us were fortunate enough to be initiated into the Beta Club, and some of us started dating for the first time. Another well remembered event of our sophomore year was the enjoyable trip which some of us made to the State Fair.

In the eleventh grade, with Mrs. Moore sponsoring us, we put on drives to make money for the junior-senior banquet, the theme of which was "Rendezvous of the Stars." Making plans for our banquet was THE highlight of our junior year.

Another exciting event of this year was ordering and receiving our class rings. You don't feel that you are really a junior until you have received your class ring.

Yes, we had a Christmas party which we enjoyed very much and which was climaxed by an orange-throwing contest.

At last--a senior in Miss Lunsford's homeroom with thoughts of publishing our annual and graduation in our minds. We realized the work on the annual would be hard work, but it was fun. We hope, with all the work we did to make it perfect in every detail, that when it comes from the press; it will be just that--perfect.

We are planning now a trip later in the spring to Williamsburg, Jamestown, and Norfolk. As we have been disappointed in two other trips we would have liked to have taken, we hope we shall not be disappointed in our last trip.

Instead of the worry and headache one gets from planning a junior-senior banquet, this year we are looking forward to the time when we can sit back, be the honored guests, and enjoy ourselves.

THE highlight of our senior year is GRADUATION, to which we are all looking forward with both great joy and great sorrow; joy to have achieved at last our motto, "The Door to Success Is Labeled Push," and to have reached our high school goal--graduation; sorrow to have to leave our friends and classmates.

Though we leave our Alma Mater and each of us goes his separate way, the memory of what our school has meant to us and our close association with one another as a class will always remain with us.

Prophecy

As I was picking a beautiful red rose one day last summer, a petal fell from it. When I stooped to pick it up, I saw the face of one of my classmates. At first I couldn't believe it; but as I looked closer, I saw the face of LINDA RHEW who is now a model in New York. She seemed well pleased with her job. No, she hasn't gotten married yet. I wonder what happened to B.H.

Since the one loose petal bore a face, I wondered if the other petals would also tell me something about the other members of my class. There was only one way to find out--put the other petals from the rose and see what happened. Now that was exactly what I did.

I pulled another petal and sure enough there was not only a face on it, but a fortune as well. The face was that of EDITH DAY. The message on the petal told me she is not a Day anymore. She finally decided upon G.S. What happened to L.B., Edith? I suppose those weekly square dances helped, didn't they?

All the petals showed me faces of my classmates and at the same time told me what lots had befallen them. In my humble way I shall pass this information on to you.

On the third petal was news about BRENDA DUNCAN. After graduation she entered politics and is now running for United States Senator from North Carolina.

I gasped as I looked at the next one. Was this MARGARET CHAMBERS? She is now a famous actress in Hollywood. Margaret has taken Marilyn Monroe's place.

What I saw when I looked at the next petal just couldn't be true. I saw GERALD ADCOCK and his wife M.C. in Paris, France, where he is residing as Ambassador from the United States. I suppose the course of French he took in high school is worth something after all.

I learned next that JAMES EAKES is assistant patrolman under Mr. W. E. Kreeger. Can you imagine James as a patrolman?

The next classmate about whom I learned was CONLEY MANGUM. Yes, he is in the chicken business on a big scale. As I gazed at his rose petal horoscope, a door to a house opened and a black headed "chicken" came out. Was it N.A. or P.C. with a dye job?

The next person whom I saw was LARRY DUNKEL and his wife A.S. and seven little Dunkels. It seems that Shakerag is an excellent place to live, especially with Otis Whitfield. Larry is sole proprietor of a plant which manufactures suits for trained tarantulas.

I realized it was almost time for me to get back to my chores in the house; and not wishing to go inside until I had learned about all the boys and girls in my class, I hurriedly pulled petal after petal.

Now it was ALVIS BURCH, king of Rock and Roll, leaving Flat River Church to meet his wife, the former Emily Rogers. Yes, they finally got hitched. They are living on a farm. Emily does the farming with a little help from Alvis. Out by the tobacco row there were all the little Burches. When they are all grown, you will have some good help, Burch.

Next I saw MARGARET ASHLEY, now Mrs. C. R. He owns Leggetts Department Store while she teaches her kids to sing Rock and Roll. Since Margaret and R.C. live on a farm adjoining Alvis and Emily's farm, she and Alvis operate as co-partners a Rock and Roll school--Alvis is dance instructor--Margaret is voice instructor.

Next it was OBIE CHAMBERS who has taken Mr. Titus' place as principal of Helena High School, and BOBBY RIMMER who has taken Mr. Floyd Hicks Jr. place as agriculture teacher.

Can you guess whom I saw next? Well, it was MARY E. TILLEY and her tribe. She has twins in her arms. Yes, she and G. D. finally tied the knot. G. D. is owner of Gas-to-bac Bottling Company. I guess those sorebacks are not too bad after all. Carry on, Kid.

Next I saw EUNICE CHAMBERS, who is a recording artist in New York. Eunice is now Mrs. R. B. R. B. is both husband and manager for his singer wife. After being asked by C. F. for an autograph, she has recorded a new version of "I Wish I Was a Single Girl Again."

I soon learned that KATHALEEN OAKLEY is in Washington, D.C., running for President of the United States.

The next petal I looked at filled my eyes with a wonderful scene. There were RACHEL CASH and her husband stirring ice cream at Long Meadow Dairy in Durham. I imagine she and Jimmy are having an icy good time.

Following Rachel it was LENNIE CREWS about whom I learned. He is still in school, not because he failed, but because of his love for his teachers. Lennie, I told you about slipping out on E.C. You had better leave those school teachers alone, especially R. L.

As I watched the next petal, I saw MAYNARD LUNSFORD. He had opened a successful garage, working on lawn mowers. Peck and F. C. couldn't get along, so he has S.A.B. as his boss and chief mechanic. I also saw that he has 13 other little helpers. Peck, I don't see how you do it.

At last I saw one face I had been looking for, that of ANNE HOWARD, who is now teaching geometry at West Point. Maybe she did learn something in high school.

As I pulled the next petal, I saw WILIAH REE BLALOCK and FREDDIE SATTERFIELD looking at a "For Rent" sign. The future is looking dim now, but wedding bells are ringing in the background. They are both home on leaves from South Africa where they have been stationed as missionaries to llamas. Also I learned about Freddie Satterfield and his hot '57 Ford, that sound like Thunder. Freddie has just out ran J. H. on that hot '49 Mercury.

As I looked at the next petal I saw EDNA DEAN and L. R. holding hands and quarreling as usual at the Amvets. It seems as if they can never finish a talk before G. D. comes and grabs him to dance.

Finally I learned that REGINELD CATES, a "Hot-Rod" instructor, and his bride G. D. were making plans to settle down in their hilltop house.

Was the next revelation possible? I was informed that the world's greatest ventriloquist, JUANITA KIDD, had stopped crying in the back seat of the "47 Chevy" and finally settled down with G. O. I, wonder how she got away from H. C. at the Amvets.

Next I saw GARY MORRIS who is running a chicken farm with about 200,000 broilers. It was inherited from his wife's (C. F.'s) father. They had some little biddies around playing. They always did look like love chicks.

Next I saw that REDA MAE TILLEY has finally hooked S. K. What happened to that "55 Chevy" that used to go down to Reda's?

The next person was FRANKIE LONG. She is still living at Hurdle Mills. From the looks of the diapers on the line, there are quite a few Longs running around.

As I looked at the next petal I saw no other than LINDA EVANS, now Mrs. W. C. P. W. C. is now owner of Triple Springs and she is life guard. How in the world did she ever get that position?

Next I saw JOESPH HICKS who is now a doctor at Duke. Joesph is still single. With all those good looking nurses around, he can't make up his mind which to marry.

When I pulled the next petal, I saw SAMMY HAWKINS. Sammy is in his last year of college. N. A. and Sammy just couldn't wait to get married, so they married after his first year and now have two children.

Then it was HENRY GRAY about whom I learned. Henry is owner of Peoples Bank. His hair is turning white because he worries so much about the bank's being robbed. Henry's wife K. O. has four children to take care of.

The next person whom I saw to my surprise was RUBY LEE McCULLOUGH, better known as "Big Apple," doing a strip tease act in a hula hoop and smoking a cigar which she was holding between her toes.

As I pulled the next petal I saw JERRY WHITLOW. Jerry is now married to M. L. They are living in Florida and liking it very well. Jerry owns a big orchard and his twelve kids surely are a big help.

As I watched the next petal, I saw JIMMY HAWKINS. Jimmy is sheriff of Person County. Jimmy hasn't arrested anyone yet. He doesn't have the heart to put anyone in jail.

Now the rose is beginning to look bare. Only a few petals are left.

The next face I saw was OTIS WHITFIELD'S. Otis and M. A. are living on a farm. They are raising tobacco and corn. They have six white haired children who keeps both of them on the go at all times.

I looked again as I went through the same petal-pulling routine and I saw JAMES BALL and his fast Pontiac with about half of my classmates with him. James is working on a course on "How to Win Your True-Love."

The next person whom I saw was DONALD TILLEY. Donald and J. O. finally got "hitched." They have inherited the Tilley farm and are raising tobacco, but mostly kids.

The next to the last petal showed me RALPH OLIVER as the owner of the Roxboro Drug Store. His one and only helper is B. D. She is also his wife.

On the last petal I was told about Jimmy Moore. Jimmy is a great orator now. At the present he is running for Govenor of North Carolina.
